- English
- Urdu

PROFILE

Aspiring Frontend Developer with a strong foundation in HTML, CSS, JavaScript, and responsive design using Tailwind CSS. Experienced in building basic web interfaces and components using React and familiar with Next.js structure and Supabase integration. Passionate about learning modern tools, and building real-world projects. Currently seeking a frontend web development internship to apply and enhance my skills in a practical environment.

PERSONAL PROJECTS

Movie App

- Using React, Tailwind CSS
- Built a movie management app where users can save, search, delete, and filter movies by genre. Implemented local state management and reusable components without relying on external APIs. Designed a responsive and user-friendly UI using Tailwind CSS.

Github Finder

- Using React, Tailwind CSS , GitHub API
- Created a GitHub user search tool using the GitHub API. Users can search by username to view profile info, repositories, and followers. Used React hooks for state and API handling. Styled with Tailwind CSS for a clean, responsive layout.

FoodApp

- Using Next.js, Tailwind CSS, Supabase
- Built a dynamic food ordering app with authentication using Supabase. Implemented features like user login/signup, add to cart, update quantity, remove items, and confirm order. Used Next.js for routing and page structure, Tailwind CSS for a responsive and modern UI, and Supabase for backend authentication and data handling.

EDUCATION

Bachelor of Science in Computer Science   Aug 2022-May 2026
University Of Education
